## GET READY TO GIVE

MISSOURI MUST RAISE 5 MILLION FOR WAR WORK

## TAKE DOWN OLD POSTERS

New Advertising Sheets Will Soon Be Ready for Distribution.—Seven Big Organizations Represented.

With the beginning in November of the United War Work Fund Campaign when this country is expected to and will raise $170,500,000—Missouri's quota is $5,000,000—attention is called to the fact that store windows and other places are still displaying posters of previous Liberty Loans and other war activities that are passed. The local United War Work Fund Campaign committees requests that these posters be removed to make place for the new posters that will soon be asked to be displayed.

Seven great organizations—the Y. M. C. A., Y. W. C. A., Knights of Columbus, Jewish Welfare Board, Salvation Army, War Camp Community Service and American Library Association, at the request of President Wilson, have combined in this great drive. The entire state is organized. There are 21 districts, each having a chairman, and each one of the 114 counties has a chairman at the head of the local organization.

But a small amount is required if all do their duty. The $5,000,000 will be apportioned among the seven organizations, under governmental direction, and not one penny will be wasted. There will be only this one big drive, and no matter what your religion, you can conscientiously give.

Every loyal person, who is sincere in his protestations of devotion to the men who are fighting our battles will do his share.

## NO ANSWER NEEDED

GERMANY'S LATEST REPLY ASKS FOR "PROPOSAL"

## DOUBT HUN SINCERITY

Note Declares the Military Powers of Germany Are Subject to the Will of the People.

Washington, Oct. 28. — Germany's latest communication doesn't require any reply from President Wilson. Officials today simply characterized it as acknowledgment of his answer of Oct. 23. Officials insisted that any armistice terms granted Germany would be of a character that would render German military and naval machines absolutely important and if accepted, actually be the end of the war.

London, Oct. 28.—Doubt as to Germany's sincerity in her last peace note to President Wilson is expressed by some newspapers here today.

London, Oct. 28.—The Austrian reply to President Wilson is now on its way to the United States. The Austrian note as given in exclusive dispatches to the International News Service last Friday accepts the provisions of President Wilson in his communication of October 18.

Copenhagen, Oct. 28. — Germany's answer to President Wilson's latest communication says:

"The German government has taken cognizance of the answer of the President of the United States.

"The President is awake of the far reaching changes which have been carried out and are being carried out in the German constitutional structure, and that peace negotiations are being conducted by a people's government in whose hands rests, both actually and constitutionally, the power to make the deciding conclusions.

"The military powers are also subject to it.

"The German government now awaits proposals for an armistice, which shall be the first step toward a just peace, as the President has described it in his proclamation."

"SOLF."

Washington, Oct. 28.—The question of an armistice and peace is already being considered by Allied governments and the United States. Col. E. M. House and Admiral W. S. Benson, ranking officer of the American Navy, recently arrived in France, the former to represent the President in the discussions to be held at Versailles where the supreme war council sits. Admiral Benson will represent the navy in any matters relating to an armistice in so far as American naval forces may be affected. Gen. Tasker H. Bliss, former chief of staff, is the American military representative at the council.

Germany's reply does not change the diplomatic situation. Those in the confidence of President Wilson have said that his dealings with the German government ended with his note informing it that the request for an armistice and peace had been transmitted to the Allies and that further action rested with those governments.

The German reply takes cognizance of the President's statement in his last note that it is evident that the power of the king of Prussia to control the policy of the empire is unimpaired by stating that the peace negotiations are being conducted by a people's government in whose hands rests the power to make the deciding conclusion and to which the military powers also are subject.

This may give added significance to the unofficial report from Berlin via Copenhagen that General Ludendorff, quartermaster general of the German Army, had resigned. He generally was regarded as the virtual head of the German high command.

### British Improve Positions.

London, Oct. 28.—The British have improved their positions in the sector of Mormal forest and north of Raismes forest, the war office stated today. The Germans made a determined counter attack at Famars, but it was repulsed after heavy fighting in the streets.

The Allies have captured 126,215 prisoners and 2,060 guns on the western battle front so far this month.

## MORE "FLU" CASES

SITUATION LOCALLY IS UNIMPROVED OVER LAST WEEK

## MOST ARE MILD CASES

City Physician Ryan Says That Most of the Sickness in City Is Influenza.—May See Change.

While there has been a number of new cases of influenza reported to Dr. F. M. Ryan, city physician, the situation locally remains unchanged and it is believed that the coming week will see a material change for the better. There are now between thirty and forty cases of influenza under quarantine, Dr. Ryan said today. No serious cases have been reported. "Most all the sickness in the city is influenza, now," said Dr. Ryan, "but it looks as though we ought to be able to see a decided change before the week ends for the better.

Physicians of the city have had their hands full taking care of influenza patients, many of whom are confined at St. Francis hospital. No surgical cases have been accepted by any of the physicians who will devote their whole time to looking after influenza sufferers.

The order requiring the closing of schools, churches, picture shows and meetings will probably remain in effect trhoughout the week.

At the home of Mrs. Emma Anderson on East Second street, it was reported by Dr. Malotte, this morning, that Mrs. Anderson and seven children were sick with the disease, three having pneumonia. The situation at the Anderson home was reported to Mayor Garrett and this afternoon arrangements were made to have those most seriously sick taken to St. Francis hospital.

A strict observance of the rules laid down by the health board is urged to be observed. "We are going up against a serious situation," said Mayor Garrett this afternoon, "and it is going to take a hard fight to check the epidemic. There must be no public funerals and people must stay away from those who have it."

### WILSON APPROVES 50% INCREASE TO RAISE $250,000,000 IN WEEK.

Chicago, Oct. 26.—President Wilson has approved an increase in the amount which the United States war work campaign will seek of nearly 50% and the organizations involved will ask the country to contribute $250,000,000 in the week of Nov. 11, said John R. Mott, directo, of the campaign, in a statement before a conference of workers from fourteen states here today.

# LEST WE FORGET:

While we have just hadwith us cold,rainy,muddy weather,with its discomforts, we should ask ourselves how we would like to be the boys in the trenches and on the front "over there," in such weather. This is but a MILD SAMPLE of what they must endure out in the open without shelter, during the coming winter.

The approaching United War Work Campaign drive will give us an opportunity to contribute to seven organizations whose workers are going among these boys with hot coffee, sandwiches,smoking tobacco,and other things that will help to reduce these hardships and protect health.

**ARE WE GOING TO DO OUR PART?**

THINK ABOUT IT: Fathers, Mothers, Sisters, Brothers, Wives, and Sweethearts, yea; all people who profess humane instincts, and let the contributions of your money indicate the nature of your hearts.

**What a Republican Paper Said.**

The St. Louis Globe-Democrat, the leading Republican paper in the state, in their issue of October 26, 1898, used this language:

"This is again a McKinley campaign. The main issues are national. The election of a Democratic Congress will be anti-McKinley. The course of the president, past, present and future, would in that case stand condemned by the people."

Again, on the morning of election, November 8,1898, the Globe-Democrat said:

"The new Congress, as everyone conversant with public affairs can see, will deal with a highly important series of international problems. When the sun goes down, the people will have decided whether the President and Congress shall be in unison or arrayed against each other in political opposition. In settling the war, the President must necessarily take the initiative, with the assistance of the State Department. A Congress hostile to the executive, would multiply the difficulties needlessly and dangerously."

# THE DEMOCRATIC COUNTY TICKET

YOUR VOTE FOR THESE MEN WILL BE A VOTE FOR THE NATIONAL ADMINISTRATION

## SOLID STAND BEHIND PRESIDENT IS URGED

**A Straightforward Statement of the Qualifications of the Candidates For County Office.**

The Democrats of this county have a county ticket selected at the primary in August that should be elected at the election on Tuesday, Nov. 5. No better men were ever selected to handle the affairs of the county and the Democratic party takes pride in presenting such a ticket for the consideration of the public.

Every voter should be sure to vote at this election. You are wanting to do your full duty—and that is to back up our great President in the stupendous task of winning this war—which he is swiftly and surely doing—and then to back him up in the great task of re-adjustment which must surely come when this cruel war is over.

During the Spanish-American war Colonel Roosevelt said:

"A refusal to sustain the President this year will, in the eyes of Europe, be read as a refusal to sustain the war."

Ex-President Harrison said:

"Stand solidly behind the President Elect only senators and congressmen in sympathy with him."

At that time there were no pro-Spanish in this country, but the Democratic party in congress and out of it, stood solidly behind a Republican administration. Now, the present administration is Democratic and the same argument ought to be made in favor of the Democratic administration.

The Democrat-Forum today is presenting the qualifications of the candidates of the county ticket.

**The County Court.**

Nodaway county during these strenuous war times, when money is needed so much by the government for conducting the war to a successful conclusion, must need have men who govern the county's expenditures wisely and conservatively and such men as Judge W. M. Blackford, as presiding judge with Judge George Hepburn from the North district and Judge Dwight Davis from the South district will be a trio that every voter in the county can have full confidence and trust in. Judges Blackford, Hepburn and Davis are the present members of the county court and are fully conversant with county affairs.

Judge Blackford has practically given his entire time to the duties of the office of presiding judge. When court is not in session, Judge Blackford, when not at work at the court house, is out over the county inspecting roads and bridges and seeing that other work is being well performed when county moneys are expended. He knows nearly every road and bridge in Nodaway county. During his administration the county farm has been a self-supporting institution and no work is hired except the superintendent of the farm. Several patients who were in State Hospital No. 2 at St. Joseph and were not considered dangerous have been transferred from that institution to the county farm. Eight patients who were county charges at the hospital were taken off of the county bill as the court discovered they had property of their own and therefore ordered a guardian appointed and the money paid out of their funds instead of the county funds. Many other facts could be mentioned of the good business administration given by the present county court.

**Dan Baker as Recorder.**

For Recorder of Deeds, the Democrats present Dan R. Baker, who was nominated without opposition. Mr. Baker is one of the best known men in the county, having been born and reared in this county and is therefore a thoroughly Nodaway county product. His private career is known to every one in the county and is without spot or blemish. His official career has been one of efficiency, courteous treatment and his accommodating manner is a matter of public knowledge as is attested by his record.

His opponent, Mr. L. C. Gann, is from Maryville and has held the office of City Clerk for about two terms and is now serving his second term as Collector of Polk township, which by the way, is one of the very best paying offices in the county, notwithstanding the fact, that the office requires his actual services for only about three and one-half months of the whole year.

Mr. Baker is a man of the highest standing, sterling citizenship and splendid habits of life. His hosts of friends believe in him and feel that his high qualifications assure his election.

**Fred Yeomans for Clerk.**

Fred J. Yeomans, who is now completing his first term as county clerk, is the candidate for re-election on the Democratic ticket, which has been customary with this office heretofore. Fred has made an exceptionally good official, his mottod being courtesy to the public and efficiency as to office duties. From a business standpoint he has operated the office with the idea in view of giving service with the smallest amount of expense to the tax-payers. In the first half of his term after his own salary and deputy hire was paid, allowed him by law, he turned back into the county treasury as shown by the printed financial statement, fees to the amount of $2,373.57, and in addition to this has not drawn on the $500 per year, the amount allowed by law for extra deputy hire. During the past year and over, Fred has patriotically done his duty as a member of the Nodaway county draft board in addition to his numerous other duties connected with the office om county eelrk. All of this has been done without complaint and we believe the people would like to see him heturned again.

**Judge Robertson for Judge.**

For Judge of the Probate Court, the Democrats present Judge Jesse F. Robertson, who was nominated without opposition. Judge Robertson has held this office fourteen months by appointment of Governor Gardner to fill the vacancy made by the death of Judge Wm. H. Conn. For twenty-six years up to the time of his appointment he was engaged in the practice of law at Burlington Junction Judge Robertson upon taking charge of this important office retained Mrs. Mabel Hunt Miller, who has been clerk of probate for the past twelve years. He has devoted his entire attention to the duties of his office, and during this short term has had some very important matters and trials lasting two or three days. His decisions and rulings have met with general approval and satisfaction to all interested.

Judge Robertson's marked ability as a lawyer, his nobility of manhood and his courteous manner to all alike makes his election decidedly certain.

**Westfall for Circuit Clerk.**

Everyone knows Henry Westfall, the party's nominee for Circuit Clerk, whose name will appear on the ballot as George H. Westfall. He has lived in Nodaway county for forty years and has made new friends every year of the forty. He was raised on a farm near Barnard, came to Maryville when a young man to complete his schooling, and then went into business here.

He has made a creditable record during the one term he has served Circuit Clerk. He has acquired a thorough knowledge of the details of this legal, technical office, and taken the pains to see that all records were promptly written up and kept neat and in good order. He has been accommodating in dealing with the public.

He merits re-election in every way, especially when it is remembered that the custom in this county for years back has been to keep the Circuit Clerk in office for not less than two terms. During the last thirty years there has been only one Circuit Clerk who has not been re-elected at least once.

**McCaffrey for Attorney.**

Charles F. McCaffrey will see to it that the office of prosecuting attorney is filled with such credit that no one can say aught against it. Mr. McCaffrey was raised in Nodaway county and as a member of the bar has had wide experience in criminal practice both in prosecution and defense. In his practice in this county he has demonstrated his ability to successfully conduct any kind of litigation. He is in the full vigor of young manhood, a good trial lawyer with the ambition to make good in every department of the office and pledged to give every matter submitted to that office the fullest investigation and to do his whole duty without fear or favor to any. In other words "Mc" says "no regard or affection he bears any man nor fear of any man or influence shall suffice to sway him from the straight line of duty."

**Job for Representative.**

Of the bills introduced by William Job, who is up for re-election as representative, in the 49th Assembly, five of them became laws, the most important of which was Nos. 51 and 126. The purpose of 51, was to break up the smuggling of narcotics into the penitentiary, which had become a disgrace to the state, but has been almost completely broken up since this law became effective. No. 126 was a road measure, and provided for the cutting of brush and weeds along the roadside and the rounding of corners and sharp turns in the road that endangered the life and limb of those traveling thereon.

Mr. Job was never absent from the assembly room during a single session from the time the legislature convened until it adjourned. The Journal shows he voted every time but five. This record was never equalled by a member of the legislature in the history of Missouri. Having served as engrossing clerk of the House, also the Senate, there is no one better qualified for the office.

# Hart Schaffner & Marx clothes that save

*for men of 14 to 21*

Copyright Hart Schaffner & Marx

There aren't any boys nowadays in the sense of fellows who haven't begun to take things seriously. The boys are all men in spirit; doing men's work; many are holding down the jobs of the men now fighting in France.

They're learning too, that it's economy to pay enough to get good stuff—clothes or anything else.

We can help any of you young men who are doing the work of the fellows gone to war; we can see that you get clothes that save.

Hart Schaffner & Marx and Cloth Craft make that kind and we sell them because they are that kind the styles are live ones. But they use no unncessary cloth nor make the clothes cost any more. We have the goods.

# CITES '98 CAMPAIGN

WHAT THE REPUBLICAN LEADERS HAD TO SAY IN CAMPAIGN

## REPLIES TO PROTESTS

**In a Letter to Cuyahoga County, Ohio, Republicans, Secretary Tumulty Quotes Republicans.**

Washington, Oct. 28.—Secretary Tumulty made public last nighth a letter he has written at President Wilson's direction to the Cuyahoga county Republican committee at Cleveland, O., in which he replies to protests against President Wilson's appeal to the country to return a Democratic congress by recalling quotations from utterances by Colonel Roosevelt, former President Harrison, Senators Lodge and Penrose and former Senator Foraker in the campaign of 1898 at the close of the Spanish-American war.

The Cuyahoga county committee telegraphed the White House, taking issue with the President's statement. Secretary Tumulty, writing at the President's direction, simply commended the statements he quoted and also various editorials appearing at the time in leading Republican newspapers to the committee's consideration without comment.

The first quotation was from Colonel Roosevelt, identified as Republican candidate for governor of New York in 1898:

"Remember that, whether you will or not, your votes this year will be viewed by the nations of Europe from one standpoint only. They will draw no fine distinctions.

**Wants Peace Now.**

"A refusal to sustain the President this year will, in their eyes, be read as a refusal to sustain the war and to sustain the efforts of our peace commission to secure the fruits of war. Such a refusal may not inconceivably bring about a rupture of the peace negotiations. It will give heart to our defeated antagonists; it will make possible the interference of those doubtful neutral nations who in this struggle have wished us ill.

"You could not get the benefits of the victories of Grant and Sherman only by re-electing Lincoln, and we will gain less than we ought from the war if the administration is not sustained at these elections."

From former President Harrison, pleading for the election of a Republican congress:

"If the word goes forth that the people of the United States are standing solidly behind the President, the task of the peace comissioners will be easy, but if there is a break in the ranks—if the Democrats score a telling victory, if Democratic senators, congressmen and governors are elected—Spain will see in it a gleam of hope; she will take a fresh hope and a renewal of hostilities, more war, may be necessary to secure to us what we have already won."

From Senator Lodge:

**Quotes G. O. P. Senator.**

"But there is one question on which I wish to say a few words and that seems to me to overrule all others. It is whether we shall stand by the administration and the President at that juncture. If we give a victory to his political opponents, we say not only to the United States, but we say to the world, we say to the Spanish commissioners in Paris, that the people of the United States repudiate its result and depudiate the man who has led victoriously the war and is now leading us back to peace—William McKinley."

From Senator Penrose:

"In his recent speeches the President has appealed not to a partisan, but to a natural spirit.

He wants Pennsylvania to remain the keystone for the Republican party. It is difficult to over-estimate the supreme importance of sustaining the President of the United States and the Republican party at the present critical crisis in our foreign relations."

From Senator Foraker:

"The war came while a Republican administration was in power and must now be settled by that administration.

"I do not believe any fair minded Democrat would question the fitness of the Republican party for the discharge of this duty, but it might be otherwise the work already in the hands of President McKinley. What he wants is the support of the house of representatives."

**McAdoo Makes Statement.**

Secretary McAdoo, last night, issued a statement supplementing the President's appeal, declaring that the only way to secure continued unity of command in America is to return a congress in full sympathy with the President's views, policies and ideals.

"Before America entered the war," Mr. McAdoo says, "the Allies had suffered repeated reverses because there was no unity of command. They were divided among themselves in authority. The first act of the President was to compel a unity of command under General Foch. Ever since that time, America and her Allies have been winning victories and a triumphant conclusion of the war is in sight as long as unity of command and of action is preserved.

"Unity of command in Europe must be backed up with unity of command and action in America."

**Two Timely Fall Recipes.**

Celery Chow-Chow.—Take one large head of cabbage, or cauliflower, six large stalks of celery, and 12 white onions; slice all fine, salt for two hours and drain. Chop fine four red and two green peppers (without seeds), and add with one-half ounce turmeric, one-half pound white mustard seed, one tablespoon mustard. Boil one quart of vinegar with one tablespoon each of ground allspice and pepper, one-half tablespoon ground cloves, two grated nutmegs, and one cup brown sugar. Pour over pickle hot; when cold add one cup olive oil and mix well.

Old Fashioned Chili Sauce. — Eight quarts ripe tomatoes, three cups of green peppers, ground fine; two cups of onions, ground, four cups of sugar, one-fourth cup of salt, one and one-half quart vinegar, two teaspoons of cloves, two of cinnamon, one of ginger, one of nutmeg. Boil three hours. Chop tomatoes, onions and peppers very fine. This will keep without being sealed.—From the Better Housekeeping Club.

**Small Boy Is a Rymester.**

The following rhyme is written by young Donald Aley, the son of Mr. and Mrs. Robert Aley, living north of the city.

THE ACROBAT.

The acrobat is a funny man,
Sometimes he wears a coat of tan,
Sometimes he wears a coat of pink,
But red is prettiest of all, I think.

I love to watch him walk the wire,
I love to watch him jump,
If he should slip and fall,
There'd be no acrobat at all.

—Donald Aley.

## Taylor County's Most Sensational Poland-China Sale

To be held on the Bowers' farm, 3 miles west of Conway and 3 miles east of Gravity, Ia., on the Waubonsie Trail,

**Friday, November 1st**

40 Head of the Biggest Young Boars of the Season.
40 Boars averaging 300 lbs each.

34 head sired by my 12-inch boned boar, Bowers' Mammoth Joe. 6 head sired by Bess Big Orange and Levi's Giant, a brother to the largest sow in the world.

Now, Farmers and Breeders, if you want a young boar with plenty of bone, length, size and big type qualities, you will find them in this sale.

I make it a study of breeding them as large as they grow. I challenge them all to show me more size, bone and big type qualities.

Now, this is a strong statement. But I believe I have the proof. The largest Poland-China hog show that was ever held in Iowa was held at Cedar Rapids Sept. 30 to October 5, 1918. It was the 3rd National Swine Show. A National Hog Show—the largest and best were entered in this show. I won the honor of having the heaviest boned boar at the show. I also had the largest brood sow ever shown of any breed. It was Longfellow Giantess, weighing 925 lbs. After 48 hours on the railroad I showed the four largest spring boar pigs, wt. 1250 lbs. The largest at the show. I also had the heaviest boned spring pigs. By having the largest sow and largest spring pigs and having the heaviest boned herd boar and heaviest boned boar pigs, I won the $100 special and 6 other ribbons. Among 30 junior spring boars from 10 different states, I won 4th place in hot competition.

Now, remember I have the hogs. Come November 1st and see them. Catalogues are now ready. Write for one by return mail.

# Public Notice

To any person that wants to make more money, come to Wyoming and buy you a farm where the crop in one year will pay for the land and where one acre put in potatoes will pay for five acres at the present price; where you and your family will be healthy and you are sure to prosper if you work and try like you have to in Missouri. Now I know what I am saying, as I lived here in good old Missouri for 18 years and always tried hard to get us a home, but when I left here three years ago I owed over $1,600.00 of debts here that I could not pay, but have paid them since I went to Wyoming. I am only telling you this to encourage you to come. We have good schools, good churches, good water and climate, and as good people as you can find anywhere. I have land I can sell from $15.00 per acre up to $50.00 per acre. Close to two good railroads. Have got a 2,400 acre ranch at $25.00 per acre that is sure a bargain.

Now the first reason I want you to come to Wyoming is, because if you come and buy a farm I get a small commission out of it, but that is not the best reason. I know I will be doing you a favor and know you will always be glad you come. Now, in case some stranger to me should read this ad. I will give you as reference some of the best men in Nodaway County or any other county. In Parnell, Mo., W. N. Morgan, C. C. Evans, A. J. Roof, Bill Jackson; Ravenwood, Mo., S. E. Wells, V. O. Hunt and James Barber; Barnard, Mo., George Cole, banker; Gaynor City, Mo., Charlie Lewis; Sheridan, Mo., C. C. Hall; Hopkins, Mo., Albert Mutti; Maryville, Mo., Nathaniel Sisson, U. S. Wright, Henry Wright, James Robinson. For any information about this county, if you can't see me when I am here, write me at Carpenter, Wyo. I took three men out with me two weeks ago and sold all three a farm. Would be glad to have you talk to any of these men: Cecil Talkington of Parnell or Elmer Talkington and Pete Mumford of Bedford, Iowa. We raise corn, wheat, oats, barley, rye, speltz, flax, millet, cane and potatoes, alfalfa and good gardens. Poultry of all kinds do well. Stock of all kinds do well, especially hogs, as hog cholera is unknown.

The only way you can realize what a good county we have is to come and see it. For further information, write—

# Red Cross News From Nodaway Auxiliaries

MRS ARTHUR M. CROOKE
Phone, Hanamo 4564

(Note:—Please report or send all news of Red Cross Activities to the editor of this column)

At a meeting of the executive board Saturday it was decided there will be no meetings of auxiliaries in the work rooms at the library until the closing order due to the influenza has been lifted by the health board. Headquarters on West Third street will remain open as usual for the transaction of business.

Our quota of socks and sweaters has arrived and within a short time the chapter will have 3,000 pounds of yarn on hand for making these articles. Knitters are asked to watch for announcement of arrival of the yarn, for with the time short in which to get our quota out it will take fast work. With winter at hand the need for warm socks and sweaters by the boys in the trenches is imperative—and we must furnish them quickly.

The linen shower that is being packed for shipment will run over the quota on some articles, but will be short on sheets. Those who have sheets that will meet the requirements, and who wish to give them, are asked to bring or send them in.

A big shipment of 12 cases will be sent to division headquarters tomorrow. The shipment includes: 30 helpless case shirts, 120 boys shirts, 300 pairs socks, 112 sweaters, 588 5-yard gauze rolls, 6,000 2x2 gauze wipes, 2,740 4x4 gauze wipes, 260 irrigation pads, 12x18, 850 many-tailed bandages, 300 triangular bandages, 230 12x18 absorbent pads, 20 comfort bags, 60 boys' suits, 50 children's capes, 340 bath towels, 180 bed sheets, 360 bath towels, 490 hand towels, 180 bed sheets and miscellaneous box consisting of 1,126 surgical dressings.

So that you may know what use is being made of the fruit pits and nut shells you are saving. They are employed as raw material for making the best grade of absorbent charcoal. This charcoal packed in a small box called a respirator on the front of the mask, absorbs the deadly gases in the inspired air. Before charcoal was used successfully a very active form had to be produced. It has been found that the hard, dense, compact substance of nut shells and fruit stones formed the most condensed and actively absorbing charcoal.

Eighty-two nurses and nineteen health centers for children are being maintained in Italy by the American Red Cross.

32,000 children in the schools of Paris were receiving food for their school lunches from the American Red Cross at the beginning of the summer.

October will be "Children's month" in France. French workers will carry on an energetic campaign of four weeks against tuberculosis and other diseases which have attacked so many French children. They will have the help of members of the American Red Cross Commission for the Prevention of Tuberculosis in France.

Junior's ingenuity in other states. The children of Idaho picked 500 lbs of wool from the bushes in the sheep pastures and presented it to the Red Cross chapter. In Nebraska the Juniors conducted a moth campaign and held a Junior farmers' congress of boys and girls from all over the state. In the Tennessee mountains they gave all the eggs laid on Sunday to the Red Cross. In Alaska the children shipped furs to their cousins on the other side.

Fighting influenza. The Southwestern Division of the Red Cross has rendered services and supplied materials exceeding $250,000 in value during the week of October 5 to 12. To combat the Spanish influenza medical supplies, blankets, pajamas and gauze masks have been furnished to many camps in the division. Graduate nurses and nurses' aids have been dispatched to cantonment towns and other points where the epidemic has been serious. Geo. W. Simmons, manager of the southwestern division, states that every resource of the Red Cross will be drawn upon, if necessary, to prevent the spread of the disease.

It is the definite aim of the Red Cross to conduct the production of the "Chapter Finished Articles" with the same efficiency and regularity of operation, and economy in the work room materials, as is attained in large commercial manufacturing enterprises. It is impossible to attain this standard at once, but if every Chapter, Branch and Auxiliary will co-operate and execute the orders and quotas given by headquarters to the Chapter, Branches and Auxiliaries to the letter then we may approach near the efficiency of the commercial manufactory.

The problem of materials is the most serious and these conditions have made necessary a program of strict conservation through Government regulation which means to insure above all else an adequate supply of materials for war needs the result of such regulation is to diminish the supply through retail channels.

The War Industries Board, the Federal Agency controlling supplies of materials, has recognized the needs of the Red Cross as next in importance to the military and naval needs, but in order to secure the advantage of this priority it has exacted the provision that the Red Cross present its program requirements in advance for definite periods.

The Red Cross has also secured the privilege of placing its contracts for materials on the same basis, as to price and terms, as the military establishment with the understanding that the Red Cross will make every effort to eliminate chapter purchasing in local markets.

Chapters when buying in local markets only increase difficulties at headquarters and are in competition with headquarters, which demoralizes the whole market.

Therefore, Chapter, Branches and Auxiliaries must purchase work room materials only from Division Headquarters.

The people are asked not to make purchases from the local market for Red Cross purposes as they are depleting the local market and increase the other channels which have already been provided for by the War Industries Board.

**The Junior Red Cross Bazaar.**

Early in December a large Bazaar is going to be held in each chapter of the Junior Red Cross. This Bazaar offers an opportunity for every boy and girl to show his skill and ingenuity. If you can draw or paint, if you can cook or sew or turn out millinery, if your bent is toward industrial art or manual training—here is your chance! You can make whatever you like best, for we want the Bazaar to be as all-inclusive as a Department Store. To make it really successful, we must start to work early—the best time to begin is NOW. You can paint Christmas cards in school; you can make all kinds of fascinating toys, Missouri mules and merry-go-round and jumping-jacks and doll-house furniture—it's surprising how easy they are to make. If you are taking domestic science, the good things you are putting up will sell like hot cakes at the Bazaar. And, of course, it will be lots of fun to work for the Bazaar outside of school hours, to see who can turn out the most novelties at home. Most of us feel that this is not a time for Christmas presents. But not even a New England conscience would be troubled by presents that came from a Red Cross Bazaar! By shopping at the Red Cross Bazaar, you can give to friends and family, while, at the same time, you are helping the Red Cross. After you finish your Xmas shopping, you will find a great many useful articles which you need for your own person or your own household—necessaries for children and grown-ups as well. The prices are going to be very reasonable. So let's get together and make the Junior Red Cross Bazaar a We must start now, making articles to sell and saving our pennies for all the things we will want to buy. Grown-ups, remember it's the best place to do your Christmas shopping! We'll surely put another kink in the Kaiser with the Junior Red Cross Bazaar."

This article is quoted from the Important Items, A. R. C. The School Committee of Nodaway county urges every teacher in the county to do her part. If you have no auxiliary in your school, send your articles to your nearest school auxiliary. You could not have a better opportunity for motivating your regular school work, your pupils will be enabled to participate in this very worthy undertaking and each one will feel that he has done one more little bit in helping to win the war.

# SEVEN WAR WORK RELIEF AGENCIES JOIN IN DRIVE

Recognized Great Organizations Representing All Creeds and Elements Welded Into One.

$170,500,000 IS THE GOAL.

Plan of War Department to Avoid Waste of Energy and Duplication of Effort Enthusiastically Adopted and Unity Is Achieved.

## WHAT GENERAL PERSHING NEEDS

"Give me nine men who have a hut and I will have a more effective fighting force than if I had ten men without it."

—*General Pershing.*

On November 11 the American people will start a one week's drive to raise the largest amount of money ever given outright by any people in the history of the world.

The drive will be a new thing under the sun. For the first time Protestants, Catholics and Jews, forgetting all their differences, will line up shoulder to shoulder, welding their individual organizations together in their common devotion to the boys in the cantonments and over there. This amalgamation of the seven great agencies engaged in war work is one of the fine developments which have been brought about by the war and under the wise guidance of President Wilson.

The seven organizations which together will make this united appeal are the Y. M. C. A., Y. W. C. A., National Catholic War Council and K. of C., the Jewish Welfare Board, the War Camp Community Service, the American Library Association and the Salvation Army. Each of them will need funds this Fall; each had planned a separate campaign for support. Now, acting on the suggestion of the President's letter of September 5, the seven campaigns will be rolled into one. The American people will be spared the burden of seven separate appeals, and the nation will have an opportunity to demonstrate splendidly that men and women of all creeds at home can work together, as men of all creeds over there are fighting and dying together.

Dr. John R. Mott, whom President Wilson has spoken of as one of the ablest and most useful men of his generation, has been selected Director General of the drive. It is interesting to note that Dr. Mott's name was placed in nomination by John G. Agar of the National Catholic War Council and seconded by Mortimer L. Schiff of the Jewish Welfare Board. The general committee having the campaign in charge contains such well known names as Raymond B. Fosdick, Chairman of the Commission on Training Camp Activities; George W. Perkins, Chairman of the Finance Committee of the U. S. Steel Corporation; James F. Phelan of Hornblower and Weeks; Honorable Myron T. Herrick, former ambassador to France; Cleveland H. Dodge, George Gordon Battle, Mrs. Henry P. Davison and Frank A. Vanderlip, president of the National City Bank.

In every city, county and town the campaign will be in charge of the biggest men of the community.

Together these seven organizations represent a work that is staggering in its proportions. They have more than 15,000 uniformed workers, standing shoulder to shoulder with the boys every step of the way from home to the front line trenches. They operate more than 3,600 buildings and ship 500 tons of supplies to the boys in France every week. Fifteen miles of film set sail for the other side each week under their direction, and the regular weekly attendance of soldiers and sailors at their motion picture shows is more than 2,500,000. The Bibles furnished to the boys since the war broke out would, if piled one on another, make a pile more than twenty miles high.

"Morale," said Napoleon, "is as other factors in war as three to one." By which he meant that one man who is kept contented and happy is better than three men who are discouraged and homesick. It is the business of these seven great agencies to help maintain morale. They are keeping up the fine fighting edge of our boys, and by their ministrations, helping to put added power into our army and navy and so hasten the hour of victory when they will bring our boys home again.

It is predicted by national leaders that this great victory drive will "go over the top" in a larger way than any campaign that has preceded it.

**Living D. A. R. Member Observes 104th Birthday.**

Mrs. Louisa K. Thiers of Milwaukee, Wis., the only living daughter of the American Revolution, recently celebrated her one hundred and fourth birthday anniversary. She was a daughter of Dr. Seth Capron, a close friend of General Washington and who, during the last two years of the revolution had charge of Washington's barge. Despite her advanced age, Mrs. Thiers is in fairly good health and an active worker, having knitted one hundred pairs of stockings for homeless children in the French war zone.

## INFLUENZA WORSE THAN HUN BULLETS

**Claiming More Victims Than Battle Fronts of Europe—Disease Can Be Avoided.**

According to carefully compiled statistics it is an indisputable fact that the Spanish Influenza Epidemic which is now sweeping all parts of the country is daily claiming far more victims than German bullets on the battle fronts of Europe. Although civil and military authorities have succeeded in checking the disease in some localities, it is growing worse in others and continues to spread at an alarming rate. That the disease can be avoided there is no longer any doubt. According to leading authorities the powers of resistance of the human system can be so perfected that it can throw off almost any infection, not even excepting Spanish Influenza, which is one of the most contagious diseases known.

It is persons who are suffering from lowered vitality, who are weak and rundown and who have not the strength to throw it off who are the earliest victims. Persons who have bad colds, who are suffering from catarrhal troubles, or inflammation of the mucous membranes are especially susceptible, as the inflamed mucous membrane linings of the nose and throat are an open door to the germs. This condition is almost always accompanied by a weakened condition of the system.

If you are suffering from any of these symptoms nothing on earth will build you up and strengthen you like Tanlac, which contains the most powerful tonic properties known to science.

This statement is easily proven by the fact that Tanlac is now having the greatest sale of any system tonic in the history of medicine. In less than four years time over ten million bottles have been sold and the demand is constantly increasing. Thousands are using it daily for the above troubles with the most astonishing and gratifying results.

Tanlac increases your strength and weight and creates a good, healthy appetite for nourishing food. It keeps you physically fit and helps every organ of the body perform its proper function in the natural way.

In connection with the Tanlac treatment be sure and keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included in every bottle.

Tanlac is sold in Maryville by the Koch Pharmacy. Adv. 25-28

American women are right behind the American troops in the trenches. Women nurses are now installed in hospitals 8 miles in the rear of the actual fighting line.

Many of our American women are unable to take up the duties of nursing at the front, but they should know how to take care of their own at home, and for this purpose no better book was ever printed than the Medical Adviser—a book containing 1,008 pages, and bound in cloth, with chapters on First Aid, Bandaging and care of Fractures, Taking care of the Sick, Physiology, Hygiene, Sex Problems, Mother and Babe, which can be had at most drug stores, or send 50 cents to the publishers, 663 Main St., Buffalo, N. Y.

Many women at home, who are worn out, who suffer from pain at regular or irregular intervals, who are nervous or blue at times, should take that reliable, temperance, herbal tonic which a doctor in active practice prescribed many years ago. Now sold by druggists, in tablets and liquid, as Dr. Pierce's Favorite Prescription. Send 10c. to Invalids' Hotel, Buffalo, N. Y., for trial package.

Hemphill, Tex.—"A few years ago I took Dr. Pierce's Favorite Prescription which has been a great benefit to me. I am in excellent health now. I hope that all women who are troubled with women's ills will try this medicine and be benefited as I have been. I think it is the best medicine that is made. It has done more for me than any I ever took. I am not able to tell all the many kinds of medicines I have taken with no benefit. Dr. Pierce's remedies are a God-send to humanity."—Mrs. Debra Rodinett.

## A WALLED CITY OF WOMEN

A little woman's village has grown up inside a high wall in France within the last year. Its square flat houses stand in straight even rows and along one side of the city wall is a long dormitory for single women. There are many more of these than of the families in the drab little houses. The village is full of women—old, young, middle-aged—whose faces, hands and hair slowly are turning yellow from the powder which it is said will eventually affect their lungs. But most of them are refugees and the fact that they are giving up their good looks, their health, and perhaps their lives in the munition factory, is of little moment to them. They have come into the walled town from ruined villages and devastated farms with their frightened little children, their despairing old people, carrying all their earthly possessions in tiny bundles. In their individual lives there is no future; in all their world there is no interest but the conquest of the Hun.

No one comes into this little war community that centers around the big new munitions plant but those who work. Because of the danger and the blighting yellow powder, the work is highly paid and all the workers are volunteers.

The women wear overalls or aprondresses, some of black sateen, some nondescript. The dull garb harmonizes with the yellowing faces and despairing eyes.

Into this modern walled city of despair the Blue Triangle has flashed the first message of hope. The Y. W. C. A. foyer is the only recreational center within reach. The cars which find cafes at the end of the line a mile away, stop running at seven o'clock to save fuel. The city is three miles from the factory.

"My problem," writes the Y. W. C. A. secretary in charge, "is to keep the women occupied in the evenings, to give them good healthy amusement so that they will forget their sorrows and go to bed and sleep, physically tired out from playing."

She goes on to tell of some of the women and girls who come to the foyer:

"There is a pretty little round, rosy-cheeked girl here who is just beginning to show the effects of the powder. The roots of her hair and her forehead are a pale yellow. The palms of her hands are a deep burnt orange and her hands and arms a bright yellow.

"There is an ex-professional dancer, an interesting girl who enjoys the foyer and helps entertain the other girls. There is a professional pianist who does her bit at the noon and evening hours. There is one rough-and-ready girl who speaks English, whose father was an innkeeper in northern France. There is a pretty little girl who is engaged to a French soldier who still is rejoicing over the five minutes she had with him recently during an air raid. His mother is the caretaker here and he is one of six sons in the war. Two of them are German military prisoners, two are civil prisoners in Germany and two are soldiers in the trenches. Her home in the north of France was destroyed and she escaped with a small bundle of such things as she could carry in her hands.

"There is a sweet-faced girl who was a lacemaker in Valenciennes, who came direct to us from the German-ridden section after a hard experience in getting away."

These are the women the Blue Triangle is helping to forget—perhaps only for an hour at a time—the horrors that have blackened their hearthstones and darkened the world.

"My foyer," the secretary writes, "consists of a hall and two large rooms with cement floors. One has a writing table and paper, pens and ink, sewing machines, a cupboard with teacups in it, a large table with papers and magazines, easy chairs and my desk. The other room has a piano, more tables, chairs, ironing boards and a Victrola. There are unframed French pictures and American and French war posters around the room. The walls are painted gray and white."

Saturday evenings they sing and dance. "First they have a chorus," writes the secretary, "such as 'Le Reve Passe' or the 'Hymne des Aviateurs' or something equally thrilling, and at the final notes of triumph a voice at my ears begs, 'Un polka, mees.' The polka finished, there is a call for the 'Hymne Americain' and we sing the 'Star-Spangled Banner,' (Le Drapeau Etoile) in two languages."

These foyers have been established in several munition centers in France. Each one has a cafeteria, a recreation hall and rooms fitted up as rest rooms, writing and sewing rooms. At night these rooms are filled with French girls learning English, bookkeeping or stenography, that they may work in the offices of the American Expeditionary Forces. In connection with each is a large recreation field or park.

At the request of the French ministry of war the Young Women's Christian association has opened club-rooms for the sixteen thousand French women employed in the offices of the war department.

So successful has been the foyer work in France that a call has come from England to the American Y. W. C. A. to bring its Blue Triangle huts and foyers across the channel. The English Y. W. C. A. has established centers for munitions workers on a smaller scale, but after inspection of the American work in France the four English representatives to the Allies Women's congress in Paris in August officially requested that the American Y. W. C. A. undertake similar work in England.

COL. McNEELY DECLINES REPUBLICAN NOMINATION FOR CONGRESS

## HIS NAME ON BALLOTS

Message to Brother of Colonel, Now in France, Came Too Late to Take Name off Ballots.

Col. John D. McNeely with the American forces now somewhere in France has declined to be a candidate on the Republican ticket for congressman. The following is from Saturday's St. Joseph News-Press:

James E. McNeely today received a cablegram from his brother, Col. John D. McNeely, who is now with the American forces somewhere in France, declining the Republican nomination for congress in the Fourth district. The message is as follows:

James T. McNeely, St. Joseph, Mo.—Cable just received. Positively refuse nomination to congress or any other political office; inform committee, with thanks. Publish.

(Signed) JOHN T. M'NEELY.

When notified of Colonel McNeely's declination today, William H. Kucker, chairman of the Republican congressional committee, said:

"I'm very sorry to get this word. Probably Col. McNeely felt that, for military reasons, it would not be proper to sanction the use of his name in connection with a political office. The cablegram has arrived too late, however, to admit of the withdrawal of his name from the ticket, as the ballots are now in the hands of the printer."

The only thing possible for the Republican committee to do at this late hour in the way of selecting a candidate for congress would be to agree upon a man and appeal to the voters to write his name on the ticket, scratching the nominee. This, however is not likely to be done.

Colonel McNeely's nomination was made by the Republican congressional committee after Ewing Herbert, also placed on the ticket by the committee since the primary, had declined to make the race.

"Skuse me, boss, but would you mind 'vancin' me a dallah to jine de lodge dis ebenin'?" asked an old colored man of Gus Romasser the other day. "I guess so, Uncle Jake, but seems to me you're always joining lodges. What's the name of this particular lodge?" "Please suh, it am de Sublime Defenders ob de Royal Purple Order of de Constellations of Epicurus." "Gee whiz—it only costs a dollar to join such a mighty lodge as that," replied Gus. "Suttinly, Marse Gus. That's nuthin.' Yu oughta see what I could jine fer a dollah and a half er two dollahs."

A writer in a Missouri paper goes into raptures over the "poetical autumn leaves." But if he had to rake the tarnal things off a half-acre lawn he wouldn't find much poetry in them.

No, Idabelle, that roar you heard was not from the big guns over-seas, but from the little guns over here when the dispatches carried the information that the government was rushing a train load of whisky to the cantonments to help fight the influenza medical men having declared that this was the one "sure cure" and preventative. The roar was from the bone driers.

A Maryville man who has been sorely tried by the antics of his Henry car has turned to "Psalming." Here it is:

The Ford is my car.
I shall not want another.
It maketh me to lie down in wet places.
It soileth my soul.
It leadeth me into deep waters.
It leadeth me into paths of ridicule for its name sake.
It prepareth a breakdown for me in the presence of mine enemies.
Yea, though I run through the valleys, I am towed up the hill.
I fear great evil when it is with me.
Its rods and its engines discomfort me.
It annointeth my face with oil.
Its tank runneth over.
Surely to goodness if this thing follow me all the days of my life, I shall dwell in the house of the insane forever.

"What is good for the stomach," is a headline of a patent medicine advertisement in the papers. Well, there's beans and roast pork and chicken, (the feathered kind), and bread and——oh, shucks, ask us something hard.

## The Itching and Sting of Blazing, Fiery Eczema

**Seems Like the Skin Is on Fire.**

There is a harrassing discomfort caused by Eczema that almost becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because only treatment can come relief can only be reached by going deep down to its source.

The cause of Eczema is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., for this remedy so thoroughly cleanses the blood that no impurities can remain. Get a bottle to-day at any drugstore, and you will see results from the right treatment. Amend section 6 of article XI of the Constitution, by striking out of said section the words "Ordinary revenue of the state" in lines fourteen (14) and fifteen (15) of said section, as appears on pages 129 and 130 of the Revised Statutes of Missouri for the year 1909, and by inserting in lieu thereof the words "Receipts of the state treasury, other than those derived by the authority of section 8 of article XI of the Constitution," so that said section as amended will read as follows:

Sec. 6. The proceeds of all lands that have been or hereafter may be granted by the United States to this state, and not otherwise appropriated by this state or the United States; also all moneys, stocks, bonds, lands and other property now belonging to any state fund for purposes of education; also, the net proceeds of all sales of lands and other property and effects that may accrue to the state by escheat, from unclaimed dividends and distributive shares of the estates of deceased persons; also, any proceeds of the sales of the public lands which may have been, or hereafter may be made to this state, and not otherwise appropriated by the state or the terms of the grant, gift or devise, shall be paid into the state treasury, and securely invested and sacredly preserved as a public school fund; the annual income of which fund, together with so much of the receipts of the state treasury, other than those derived by the authority of section 8 of article XI of the Constitution, as may be by law set apart for that purpose, shall be faithfully appropriated for establishing and maintaining the free public schools and the state university in this article provided for, and for no other uses or purposes whatsoever.

Sec. 2. That section 7 of article XI of the Constitution be repealed and stricken out, and the following new section adopted in lieu thereof:

Sec. 7. In addition to the tax for state purposes, authorized by section 8 of article X of the Constitution, there shall be levied and collected fifteen cents on the one hundred dollar valuation, on all the taxable property of the state, which, without action by the general assembly, shall stand appropriated for and shall constitute a fund for the support of the free public schools of the state, and for no other uses or purposes whatsoever. In case the public school fund provided for herein and in section 6 of article XI of the Constitution, for the support of free public schools, shall be insufficient to sustain a free school at least eight months in every year in each school district in this state, the general assembly may provide for such deficiency in accordance with section 11 of the article on revenue and taxation.

It shall be the duty of the county court, on petition of not less than ten qualified voters and taxpayers residing within any such road district, to submit the question of authorizing such special levy to the qualified voters of such district at a special election to be held for that purpose, within twenty days after the filing of such petition.

Said Homestead Loan Fund shall be lent to citizens of Missouri for the following purposes and for no other purpose whatsoever: (1) to purchase homesteads; (2) to erect permanent improvements on homesteads. Not more than three-fourths of the appraised value of any homestead shall be lent thereon; PROVIDED, however, that three-fourths of the appraised value of the homestead may be added to the three-fourths of the appraised value of the land to ascertain the limit of the loan. No loan exceeding three thousand dollars shall be made on one homestead. Every loan shall be secured by note and mortgage or deed of trust constituting a first lien on the homestead, except taxes and special assessments, and the improvements on the homestead shall be kept safely insured against fire and windstorms of the full insurable value thereof, and the policies shall be assigned as additional security for the loan. Every loan made from said fund shall bear interest at three per cent per annum, beginning one year after date of the loan, which interest, together with one-twentieth of the principal, shall be paid at the end of the second year and at the end of each year thereafter until the loan is paid in full; PROVIDED, however, that if the homestead on which such loan is made shall cease to be used as such by the owner thereof or his family, then the unpaid portion of such loan shall become payable in three equal installments falling due at the dates of the next three installments of the loan as due by the original terms thereof, with interest at six per cent per annum.

EIGHTH CONSTITUTIONAL AMENDMENT.

Providing that all public revenues shall be derived from taxation upon the unimproved value of land based upon assessments made on and after June 1st, 1919, and from taxes upon the manufacture and sale of intoxicating liquors and tobacco, and on incomes and inheritances; abolishing all constitutional limitations on the rates of taxation, and empowering the legislature, county courts and municipal authorities to fix the rate for state and school, county and municipal purposes, respectively, classifying rights of way or public utilities for purposes of taxation, and repealing all constitutional provisions in conflict herewith.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF MISSOURI:

The Constitution of Missouri shall be and the same is hereby amended by adding the following Section to Article X thereof:

All public revenues for state, county, municipal, school and all other public purposes shall be derived from taxes on the value of land exclusive of improvements and from such taxes as may be imposed by law on the manufacture and sale of intoxicating liquors and tobacco, and on incomes and inheritances; but this shall not prevent the imposition of such license taxes as may be necessary to a proper exercise of the police power. Rights of way for public utilities shall be deemed property in land and the value thereof shall be taxed accordingly if not owned by the public. This amendment shall govern all taxes for which assessments shall be made on and after June 1st, 1919, but not those assessed before that date. All constitutional limitations of rates of assessment and taxation are hereby abolished and the legislature is hereby empowered to fix such rate of taxation as shall produce the revenue required for state and school purposes and in counties the County Court of each county and in municipalities the corporate authorities of each municipality shall have power to determine the rate necessary to produce the revenue needed from time to time for municipal purposes; PROVIDED, that any school district in the state may increase the rate for school purposes fixed by the legislature by submitting such increase to a vote of the people of such district. All provisions of the Constitution conflicting herewith are repealed so far as they so conflict.

NINTH CONSTITUTIONAL AMENDMENT.

Authorizing cities having a population of more than one hundred thousand inhabitants to provide by ordinance for the election of a charter commission to frame a new charter, and for the adoption thereof, and providing the method by which amendments may be made therete

IT IS PROPOSED BY THE LEGAL NUMBER OF QUALIFIED VOTERS OF THE STATE OF MISSOURI:

That at the general election to be held on Tuesday, following the first Monday in November, 1918, there shall be submitted to the qualified voters of Missouri, for adoption or rejection, the following constitutional amendment, to-wit: The repeal of Sections Sixteen and Seventeen of Article Nine of the Constitution of Missouri, and the adoption of the following new sections in lieu thereof:

Section 16. Charter Framed by Large Cities.—Any city having a population of more than one hundred thousand inhabitants may frame and adopt a charter for its own government, consistent with and subject to the Constitution and laws of the state in the following manner:

The legislative authorities of the city may provide, by ordinance, for submission to the voters the question: "Shall a commission be chosen to frame a charter?" If such ordinance becomes effective more than sixty days before the next election such question shall be submitted at such election, and if not, then at the next general election thereafter, except as herein otherwise provided. Such question shall also be submitted, when requested, by a petition signed by 15 per cent of the qualified voters of such city, filed with the Board of Election Commissioners or such board or officials as may be in charge of municipal elections in such city. If such petition prays for a special election and is signed by 20 per cent of the qualified voters of such city, a special election shall be held in such city not less than sixty days, nor more than ninety days, after the filing of such petition. The percentage of electors required to sign any petition provided for herein shall be based upon the total number of electors voting at the last preceding general municipal election. The petitions herein provided for shall be canvassed by the Board of Election Commissioners or other officials having charge of municipal elections in such city, and its determination as to the sufficiency of such petition shall be final. The question of whether or not a commission shall be chosen to frame a new charter and the names of electors or sets of names of electors of the city, who are candidates for the proposed commission, shall be printed on the same ballot. Candidates for the proposed commission shall be nominated by petition signed by not less than 2 per cent of the qualified voters of such city and filed with the Board of Election Commissioners, or other officials having charge of municipal elections in such city at least thirty days prior to such election; PROVIDED, that in no case shall the signatures of more than 1,000 voters be required to nominate a candidate. If a majority of electors voting on the question of whether or not a charter commission shall be chosen to frame a charter, vote in the affirmative, then the thirteen candidates receiving the greater number of votes shall constitute such commission.

Any charter so framed shall be signed by a majority of the commission, and filed with said election officials, who shall submit said charter to the electors of the city at an election to be held at a time fixed by the charter commission, but at least thirty days subsequent to the completion of the charter and not more than one year from the date of the election of such commission. Any part or parts of a charter so framed may be submitted to be voted upon separately and shall be deemed adopted if it shall receive a majority of the votes cast on that proposition. Any alternative section or article may be presented for the choice of the voters and may be voted on separately and accepted or rejected, separately, without prejudice to other articles or sections of the charter. If a charter is adopted at such election that section or article submitted in the alternative, which receives the greater number of votes, shall be deemed adopted. If any such proposed charter be approved by a majority of the electors voting on the proposition of whether or not such charter shall be adopted, it shall become the charter of such city at the time fixed therein. Duplicate certificates shall be made, setting forth the charter adopted and its ratification, which shall be signed by the chief magistrate of the city, and authenticated by the corporate seal. One of such certified copies shall be deposited in the office of the Secretary of State and the other, after being recorded in the records of the city, shall be deposited among the archives of the city and all courts shall take judicial notice thereof. The notice for any election provided for in this section shall be published for at least three weeks in at least one newspaper printed in such city, which newspaper shall have a bona fide sale or circulation in such city of at least 2,000 copies of each issue, in which such notice is published, and which newspaper has been published continuously for fifty-two weeks next before the publication of such notice, such publication of such notice to be made at least once each week and on the same day of the week in each of said three weeks, and the last publication to be within two weeks of the date of such election.

Section 17. Amendments to any charter framed and adopted under the authority of Section Sixteen of Article Nine of this Constitution, may be submitted to the electors by a charter commission in the manner provided for the submission of a complete charter. Amendments may also be proposed by the legislative authority of the city or by a petition of not less than 15 per cent of the qualified voters of the city, filed with the Board of Election Commissioners, or officials having charge of municipal elections in such city, setting forth such proposed amendment. The legislative authorities of the city shall at once provide, by ordinance, that any amendment so proposed shall be submitted to the electors at the next election held in the city not less than sixty days after its passage, or at a special election, if called for in the manner hereinabove proposed, in Section Sixteen of this Article. Any proposed amendment submitted to the electors, and approved by a majority of those voting thereon, shall become a part of the city charter at the time and under the conditions fixed in such amendment; and sections or articles may be submitted in the alternative and determined in the same way as hereinbefore provided with reference to alternative sections or articles of a complete charter.

# About Missouri's New Capitol

**Description.**

On October 5, 1918, Missouri's new $4,000,000 capitol was formally completed and the dedication was set for that date by the Capitol Commission Board. War conditions, however, made it impractical to hold the dedication ceremonies under circumstances such that the people of the state could attend in large numbers. The capitol is now open for the uses of government and for the inspection of visitors.

The new building cost $3,775,000. The furnishings cost $250,000 and the grounds $190,000. Total, $4,215,000.

It was built under the direction of a bipartisan commission of four members, who entered upon their duties October 6, 1911, and turned over the building to the state October 5, 1918.

The building covers three acres, has 500,000 feet of floor space, is five stories high, is fire proof and its dimensions are 8,648,814 cubic feet.

It is constructed of Burlington limestone from the quarries at Carthage and Phoenix, Missouri.

Its length is 437 feet. Its width in the wings is 200 feet and in the cetner 300 feet. The height to roof of wings is 88 feet; to top of dome 238 feet.

It contains 240,000 cubic feet of stone in the exterior and 70,000 feet in the interior, of which one-fourth is in columns. There are 131 of these columns.

Its frame is of steel, of which there are 5,200 tons.

The eight columns upon the south front portico are 48 feet high and four feet, eight inches in diameter. The six columns upon the south portico are of the same diameter and 40 feet high.

The foundation consists of 285 concrete pillars, which stand upon solid rock and descend from twenty to fifty feet below the surface.

The stone cost $774,900; the steel, $354,448; the plastering, $163,980, and the painting, $16,763; the brick, $125,136.

The acoustics of the Senate and the House are admirable, the construction of those chambers in this respect having been under the greatest scientific expert on acoustics in the world.

The interior of the corridors and rotunda of the first, second and third floors are lined with Carthage marble.

The grand stairway is 30 feet wide, said to be the widest in the world, and the front door is of bronze, 13 x 18, and the largest since the Roman era.

The legislative assembly rooms, the historic and resources museums, the legislative library, the Governor's reception room and the House and the Senate lounging rooms are unusually attractive.

The rotunda upon the legislative floor is very spacious and imposing; a whispering gallery in the upper part is on original and interesting feature.

There are in the structure 4,650,000 and 43,376 barrels of cement.

It is Missouri made. All the material in it, except the columns in the House and Senate, was either grown or fabricated in Missouri or purchased from Missouri dealers.

The entrance is noble and imposing. One standing upon the front portico can see into the dome.

The architecture is pronounced by the best judges as unsurpassed by any public building in the country. The architect was Egerton Swartwout of New York City.

**History of Former Missouri Capitols.**

On August 1, 1911, the people of Missouri, by a vote of 144,664 for to 45,468 against, voted $3,500,000 and interest to erect and furnish a new state capitol building upon the site of the old one and to purchase additional grounds for same. The old building burned February 5, 1911.

Missouri has had three seats of government—one in St. Louis, from 1820 to 1821; the next at St. Charles, from 1821 to 1826, and the third at Jefferson City, from 1826 to date. There have been three capitol buildings at Jefferson City, one from 1826 to 1838; the next one from 1838 to 1911, and the present new capitol.

# Aside from War, Greatest Theme In France today is Tobacco

By R. J. KIRK

Member of American Ex. Forces.

Somewhere in France, Oct. 28—Probably the most discussed theme next to the war in France today among the French public is tobacco. The authorities see that they get enough bread and three meatless days a week cause no hunger pangs. But tobacco, it can't be obtained except on rare occasions. And what they do get is pretty fierce. "Tres mauvais, Monsieur," they assure the American soldiers, who have a fairly plentiful supply of American manufacture.

Tobacco in France is issued by a sort of brend card arrangement. The available supply is proportioned out to the tobacco shops, and on certain days a limited amount may be sold to civilians. The soldiers at the front are supplied first, then the troops in the rear, and if there is any left the civilian can take his regular turn in getting his allotment.

French tobacco at its best is pretty bad, most any American soldier will assure you. But with the war restrictions in preparation it is infinitely worse. It is no more like American tobacco than day is like night. Apparently the French manufacturers do no blending. Tobacco being a Government monopoly, there were even in the old days not more than two or three brands. It all looks alike—black and stringy and tastes like natural leaf, only stronger.

Waiters in cafes and cab drivers take their tips from American patrons in cigarettes or pipes full of smoking tobacco. French millionaire bankers and clubmen are not a bit abashed to have a smoke with a Yankee private soldier. There is one delightful thing about French democracy—it hits them all alike. The teamster, the carpenter and the shoveler smoke as much as the millionaire.

The greatest favor an American soldier can do a Frenchman is to give him a sack of American tobacco. Probably these little gifts of the "filthy weed" have done more to cement the Franco-American union and to clear the way for a mutual understanding than any other one thing since the Yankees arrived in France more than a year ago.

French women are the most appreciative of all for tobacco gifts. Not for themselves, but for their relatives and sweethearts in German prison camps. It would be difficult to estimate how many pounds of American tobacco the Yankee trooper has sacrificed for a French friend to send to the German stockades. It would be more difficult to estimate how much of it ever reached its destination after it reached German hands. But some of it has gone through and the French appreciation of the American's sympathy has increased in proportion.

Doan's Kidney Pills gave a very fine benefit at once and continued use brought lasting results. It has been some time now since I have needed such a medicine."

# Spanish Influenza--The Way To Treat it and to Avoid it

## Simply The Old-Fashioned Grip Masquerading Under a New Name

Spanish Influenza, which appeared in Spain in May, ha sall the appearance of grip or la grippe, which has swept over the world in numerous epidemics as far back as history runs. Hoppocrates refers to an epidemic in 412 B. C. which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1831, this country has had five epidemics, the last in 1889-90.

There is no occasion for panic—influenza or grip has a very low percentage of fatalities—not over one death out of every four hundred cases, according to the N. C. Board of Health. The chief danger lies in complications arising, attacking principally patients in a rundown condition — those who don't go to bed soon enough or those who get up too early.

**THE TREATMENT.**

Go to bed at the first symptoms, not only for your own sake, but to avoid spreading the disease to others—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Quinine, Aspirin or Dover's Powder, etc., may be administered by the physician's directions to relieve the aching. But there is no cure or specific for influenza—the disease must run its course, but nature herself will throw off the attack if you only keep up your strength. The chief danger lies in the complications which may arise. Influenza so weakens the bodily resistance that there is danger of pneumonia or bronchitis developing and sometimes inflammation of the middle ear, or heart affections. For these reasons, it is very important that the patient remain in bed until his strength returns—stay in bed at least two days or more after the fever has left you, or if you are over 50 or not strong, stay in bed four days or more, according to the severity of the attack.

**HOW TO AVOID THE DISEASE**

Evidence seems to prove that this is a germ disease, spread principally by human contact, chiefly thru coughing, sneezing or spitting. So avoid persons having colds, which means avoiding crowds—common drinking cups, roller towels, etc. eep up your bodily strength by plenty of exercise in the open air, and good food.

**KEEP FREE FROM COLDS**

Above all, avcid colds, as cold irritate the lining of the air passages and render the mmuch better breeding places for the germs.

Use Vick's VapoRub at the very first sign of a cold. For a head cold, melt a little in a spoon and inhale the vapors, or better still, use VapoRub in a benzoin steam kettle. If this is not available, use an ordinary tea-kettle. Fill half full of boiling water, put in half a teaspoon of VapoRub from time to time—keep the kettle just slowly boiling, and inhale the steam arising.

NOTE: Vick's VapoRub is the discovery of a North Carolina druggist, who found how to combine in salve form Menthol and Camphor with such essential oils as Eucalyptus, Thyme, Cubebs, etc., so that when thesalve is applied to the body heat, these ingredients are liberated i nthe form of vapors. VapoRub can be had in three sizes at all druggists. While comparatively new in certain parts of the North, it is the standard home remedy in the South and West for all forms of cold troubles—over six million jars were sold last year. VapoRub is particularly recommended for children's croup or colds, as it is externally applied and can, therefore, be used freely and often—without the slightest harmful effect.

Do outside laundries give you a two-day service, collecting and delivering all your work?

Then why send your laundry to them when just as good, if not better work can be done here at home?

All we ask is a trial, then judge for yourself.

Let our wagon call for your laundry and deliver it right to your door. Send your family washing and have all the flat pieces, such as towels, sheets and table linen, ironed—all for 6c per pound.
